WINDENERGY HAMBURG 2018

The global on and offshore expo

WindEnergy Hamburg is organised jointly by Hamburg Messe und Congress and Messe Husum & Congress. As the global leader in its sector, WindEnergy Hamburg is the international meeting point and is held in even-numbered years

WindEnergy Hamburg - simply more

WindEnergy Hamburg is much more than just a trade fair. It covers the whole value chain of wind energy, and provides a special focus for expertise in its section on storage technologies. It also has an extensive supporting program and lots of added value, such as synergy with SMM, the leading international maritime industry fair, which is held at the Hamburg Messe site shortly before WindEnergy Hamburg. This and many other benefits make WindEnergy Hamburg the key wind industry event.

INDIAN PAVILION

India has been present at the WindEnergy Hamburg for the last several years. This time, in order to make a stronger presence felt by Indian Companies, the Indo German Chamber of Commerce is organizing an Indian Pavilion at the show.

A Stand at the Indian pavilion has many benefits:

- 9 sqm stands are available (as opposed to a 12 sqm minimum)
- High visibility within the National Pavilion
- Excellent location
- WE Hamburg has over 35,000 trade visitors from 48 countries
- PR Support of the IGCC

In the following 2 pages, please find the cost (In Euros) and the deliverables mentioned.

I hope to engage you in a dialogue on the benefits of being present at the WindEnergy Hamburg and then to finally having you in the pavilion with us.

Looking forward to hearing from you

Deepika Unni
Representative of Hamburg Fairs in India
